

SAFETY TOOL BOX MEETING

NO. 36 - CARTRIDGE HAMMERS OR RIVET GUNS

Only to be used by trained persons issued with a certificate

1. Read maker's instructions carefully before using gun.
2. Before handling gun make sure it is NOT LOADED.
3. Load gun with barrel pointing in safe position - away from you.
4. Never place your hand over the end of the barrel.
5. Never walk around with a loaded gun - load on site.
6. Check material into which bolt is to be fired
7. Allow at least 3" from edges of concrete or brickwork.
8. Hold gun at right angles to the job when firing.
9. Wear goggles when using the gun.
10. In the event of a misfire wait a minute before unloading.
11. Keep the gun clean and well oiled.
12. Never leave gun loaded when not in use.
13. Return all unspent cartridges to the site offices/stores when work is completed. NEVER leave unspent cartridges on site. They must be accounted for.

TREAT CARTRIDGE HAMMERS WITH RESPECT - ALWAYS

I have given the above talk to all men under my control.
