

Short Term , Contract and Visitor Safety Instructions			Section		HEALTH AND SAFETY	
			Status		Proforma	
			Reference			
			Revision	00	Date:	Jan 07
			Sheet No	Page 1 of 1		

Whilst visiting this Al Khodari Contract, we wish to draw your attention to the following site procedures:-

1. Safety helmets, safety footwear and high visibility clothing must be worn. This is a standard procedure and we, as management, must set the correct example.
2. Certain activities on site require operatives to wear additional protective equipment such as eye and ear protection. Please keep clear of such activities to avoid injury to yourselves and not to disturb the operative whilst he is concentrating on his work. If you do need to approach such operations you **MUST** also wear appropriate additional protection.
3. Safety signs are displayed on site warning of particular hazards. You must observe and comply with these notices at all times to avoid unnecessary distress.
4. Safety barriers may be erected in certain areas on this site. Do not attempt to cross these barriers to take short cuts, they have been erected for your safety on site.
5. Pay particular care when in areas where mobile plant is operating.
6. Always use the access provided, e.g. scaffold, ladders etc., as falls are the major killer in our industry.
7. If you see **ANY** unsafe practices, please bring it to the attention of Al Khodari management who shall rectify the situation immediately.
